

# Getting to the Penn Memory Center

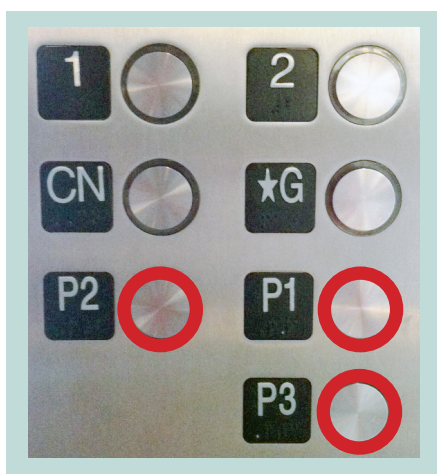

Appointments at the Penn Memory Center take place in our offices on floor 2 of the Perelman Center for Advanced Medicine. The elevators in the building can be a bit confusing. Please use these directions for entering the Perelman center from either the front entrance or the parking garages.

## If you enter from the front...

...you are on the lobby on the ground floor, called G on the elevator pad and highlighted in **red**. To reach the Penn Memory Center take the elevators up two floors to floor 2. Then, walk straight across the lobby. The Penn Memory Center will be the first set of double doors on your left.

## If you enter from the parking garages...

...you are on parking levels one, two or three (P1, P2 or P3), highlighted in **red** on the elevator pad. To reach the Penn Memory Center, simply press the 2 button for the second level. Then, walk straight across the lobby to the Penn Memory Center waiting room, which is the first set of double doors on your left.
