The Christopher M. Clark Scholars Program provides a unique training opportunity for a diverse group of individuals who are post-doctoral (MD or PhD) trainees, graduate students or junior faculty to train at the University of Pennsylvania Alzheimer's Disease Research Center (Penn ADRC) for a career focused on Alzheimer's Disease and Related Dementias (ADRD). The spectrum of training opportunities includes basic, translational and clinical research and is available for up to 2 years starting July 1, 2024.

CLARK SCHOLARS WILL...

- Be supported in the pursuit of an academic career focused on ADRD
- Write a career development grant proposal with the support of their mentors
- Receive financial support as needed
 - A Clark Scholar can receive financial support of up to \$20,000 per year if justified in their application and approved

APPLY NOW!

Application Deadline:

March 18, 2024

- Write an essay (no longer than 4 pages) that includes your background, qualifications, research focus, career goals, how your plans will enhance diversity, potential research project and mentors (if identified), and financial support needed.
- NIH format biosketch
- Include a cover page that includes your full name, address, email and telephone number
